 285 ¡Sorpresa! TV

Charter Communications. Programming may vary. Channels, Tiers and Packaging subject to change. Services not available in all areas. Charter issued digital receiver or CableCARD required to view programming channels, except for Basic Service viewable with customer owned TV equipped with digital

QAM Tuner subject to future service changes when a market transitions to All Digital. Charter issued digital receiver required to view PPV and On Demand programming (where available). HD capable equipment required to view HD programming (where available). All programming may not be available to CableCARD or Digital Terminal Adapter customers. All service levels may contain channels with some R-rated programming, which can be blocked using the Parental Control feature on your on-screen program guide.

In a switched digital market, due to system technology enhancements access to certain digital channels will require a digital receiver, as HDTVs & digital QAM tuners equipped with CableCARDS or TV's equipped with Digital Terminal Adapter's cannot access certain digital channels requiring two-way communication (e.g., PPV & On Demand programming). CableCARD customers with TiVo equipment will also need a Tuning Adapter for access to such digital channels.

SAP - Second Audio Programming (Spanish Language when available) is offered on analog Basic Service & Expanded Service channels. Check your interactive program guide for further details. Channel numbers listed are for either analog cable-ready TV sets or Charter digital receivers. Customers using a QAM tuner TV or other personal QAM tuner device, not connected to a digital receiver, must activate the Auto Program feature, as described in the TV/device's Owner's Manual, to receive some digital services.
